

RITE-LITE® II HARD HAT SAFETY LIGHT

INSTRUCTIONS

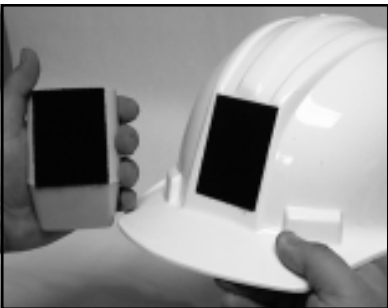

The RITE-LITE is supplied with one pair of self-adhesive mounting strips (2" x 2-3/4"). Locate the best mounting position on the hard hat for the RITE-LITE. Make certain the surface is clean and dry. Leave the mounting strips together.

Peel off the backing on the fabric half of the mounting strip and press onto the back of the RITE-LITE. Hold for a few seconds to bond.

While holding the RITE-LITE, remove the backing from the hook half of the mounting strip. Press the RITE-LITE onto the hat and hold for a few seconds to bond.

Turn the RITE-LITE on and off by using the switch located on the side of the light. To remove the RITE-LITE from the hat, simply hold the RITE-LITE and "peel" it off the mounting strip on the hat. Replace the mounting strips as needed.

FEATURES

- Contoured design fits hard hats and bump caps. Also provides a natural fit in your hand.
- On/off switch gives a positive switching action.
- Made of impact resistant polystyrene plastic with no exposed metal.
- Alkaline powered RITE-LITE II weighs 7.5 oz. (213g). Burns 15+ hours (more with intermittent use)*.
- No user fatigue.
- Ultrasonically sealed assembly.
- Self-contained; no batteries or bulbs to replace.
- "Fly-Eye" reflector provides a bright, even flood of light.
- Polycarbonate lens assists in focusing the light and protects the bulb from damage.

* Burn time varies due to usage and temperature.
