

NEW C-10 Carrying Case Lanyard Series

Introducing HDE's NEW C-10FR Carrying Case Lanyard, developed for the V-Watch Personal Voltage Detectors! There are now two versions of the C-10 Carrying Case Lanyard available:

- NEW C-10FR Carrying Case Lanyard – made with a high-visibility safety green material that is shielded with the added benefit of an outer layer of flame resistant material
- C-10 Carrying Case Lanyard – made with a black shielded material

The C-10 Series Carrying Case Lanyard for V-Watch® Personal Voltage Detectors combines the carrying case and lanyard into a single case. The Carrying Case Lanyard is designed to leave the V-Watch mounted inside and offers the dual feature of protecting the V-Watch when not in use and acting as a lanyard for the V-Watch when in use.

Features and Benefits

- Can be used with any V-Watch Personal Voltage Detector – old or new versions
- Shielded case – protects the V-Watch and effectively turns off the V-Watch when not in use
- Adjustable lanyard – allows the user to wear the V-Watch at the proper mid-chest position
- Rugged swivel clip – allows the user to position the case anywhere in the proper position
- Ease of use
- Simplicity of training
- Easy deployment to trained and untrained personnel
