

## HD Electric Company Wireless Phaser

HDE's TAG-5000 Wireless Phaser is designed to perform many of the existing functions of conventional voltmeter / phaser devices while using state-of-the-art technology that *eliminates the cord* and *lightens the weight* of this important testing device. TAG-5000 can be used for all overhead and underground phasing applications and is ideal for use at higher voltages where safety and ease of use are prime considerations.

Visit our website to get more information on the TAG-5000 Wireless Phaser- [HDElectricCompany.com](http://HDElectricCompany.com).
