## **Arrester/Leakage Testers**

HD Electric Company is pleased to add the Hi-Test Detection Instruments products to our growing product line. The **HiSat Arrester/Leakage Testers** are fully portable current limited high voltage testers that can be used for safe and non-destructive testing of arresters, insulators and a wide variety of other items. By identifying and replacing faulty arresters, users can reduce system problems and customer complaints. Three models test all types of arresters up to 25kV class.
