Overhead Line Recorder

HD Electric Company of Waukegan, Illinois is pleased to announce the acquisition of the Ramcorder product line from Maysteel LLC. **The OH1600 Overhead Line Recorder** measures and records current and ambient temperature at user determined intervals. It is hotstick mountable, battery powered and stores information up to 30 days. The unit then connects to a computer to analyze and graph the data. Multiple units can be used to monitor all three phases and the data can be merged into one graph.
