HD Electric Company Announces Purchase of RAMCORDER Product Line

HD Electric Company of Waukegan, Illinois, USA is pleased to announce the purchase of the RAMCORDER product line from Maysteel LLC of Menomonee Falls, Wisconsin, USA. HD Electric Company purchased the line in June of 2001.

As a sixty-eight-year-old manufacturer of electrical test and measurement products, HD Electric Company is proud to add this new product range. The addition of the RAMCORDER products continues our mission to offer a product for testing everything on the power pole!

Watch for some exciting changes to occur in the next several months, as HD Electric Company prepares to offer more specialized products to help solve your test and measurement needs.

Further product information is available by contacting:
