MEMORANDUM

TO: Users of SANGAMO Capacitor Controls; Time Switches; and Recorders
FROM: HD Electric Company Sales & Marketing Department
DATE: April 12, 2005
RE: SANGAMO Products Manufacturing Discontinuation

Effective immediately, the above referenced products are no longer available. HD finds this action necessary primarily because of the inability to source critical components used in the assembly of these products.

Please note that HD will continue to support these products to the best of our ability, but will be unable to provide repair service or parts. HD will continue to accept orders for pens and charts used in the SANGAMO Graphic Recorders.

This notice DOES NOT AFFECT the AD-7 Ampere Demand Meter product line.

Please contact HD Electric for further information at 847-473-4980.
